

Electric Part-Turn Actuator SP 0

Type number:	280	
Max. load torque:	40	[Nm]
Operating time:	15 to 160	[s/90°]
Operating angle:	90° to 270°	
Ambient temperature:	-25 to +55	[°C]
Protection enclosure:	IP 54, IP 67	
Operating position:	any position	
Weight:	1,4 to 2,4	[kg]

Standard Specification

- Supply voltage 230 V AC
- Terminal board connection
- 2 position switches
- Mechanical connection ISO 5211 - flange F03, F04

Options

- Supply voltage 220 V AC, 24 V AC, 24 V DC
- 2 additional position switches
- Transmitter:- potentiometer: 1x100 Ω, 1x2000 Ω- electronic position transmitter 0/4 - 20 mA, (passive/active)
- Space heater
- Mechanical connection ISO 5211 - flange F05, F07 with bracket
- Manual control
- Disengagement without manual control (version with lever)
- Mechanical stop ends
- Version with stand, lever and pull-rod
