

Electric Part-Turn Actuator SP MINI

Type number:	272	
Max. load torque:	12	[Nm]
Operating time:	80 to 160	[s/90°]
Operating angle:	90° to 270°	
Ambient temperature:	-25 to +55	[°C]
Protection enclosure:	IP 67	
Operating position:	any position	
Weight:	1,4 to 2	[kg]

Standard Specification

- Supply voltage 230 V AC
- Terminal board connection
- 2 position switches
- Mechanical connection ISO 5211 - flange F03, F04
- Disengagement without manual control

Options

- Supply voltage 24 V AC
- Transmitter:- potentiometer: 1x100 Ω, 1x2000 Ω- electronic position transmitter 0/4 - 20 mA, (passive)
- 2 additional position switches
