

Electric Linear Actuator UL 2-Ex

Type number:	537	
Switching-off thrust:	7000 to 25000	[N]
Operating speed:	14 to 120	[mm/min]
Operating stroke:	10 to 96	[mm]
Ambient temperature:	-25 (-50) to +55	[°C]
Protection enclosure:	IP 67	
Operating position:	any position	
Weight:	26,0 to 34,2	[kg]
Explosion protection:	II 2G Ex d IIC T5 Gb	

Standard Specification

- Supply voltage 230 V AC
- Terminal board connection
- 2 thrust switches
- 2 position switches
- 2 additional position switches
- Space heater with thermal switch
- Mechanical connection - pillars
- Manual control
- Mechanical position indicator

Options

- Supply voltage 3x400 V AC
- Transmitter:- potentiometer: 1x100 Ω, 1x2000 Ω, 2x100 Ω, 2x2000 Ω- electronic position transmitter 0/4 - 20 mA, (passive/active)
- - CPT (capacitive) 4 - 20 mA, (passive/active)
